OPPORTUNITY for Retail Merchants

THE next few years will mark a tremendous change in the business of retailing.
 Motor Transportation, now reduced to a low-cost basis, gives retailers a great opportunity for business growth because it widens their trading area.
 The Ford One-Ton Truck makes available this opportunity. It is Motor Transportation at low cost—low first cost, low maintenance cost, low operating cost.
 A small outlay will motorize your deliveries and open to you the opportunity for business expansion.

Complete Trucks—Two Standard Bodies

Ordinary hauling and delivery work can be best adapted to two standard types—the Stake Body and the Express Body.

These two body types are kept in stock ready for immediate delivery. They insure the maximum efficiency from the Ford Truck.

Both types have the Enclosed Cab with the two-way windshield which gives the driver proper protection from the weather.

See these complete trucks. Note the opportunity to enlarge your field of business. Let us solve your delivery problem.

Price (Chassis only)
 \$720 Each, Ford Cost.

Standard Ford Bodies extra. Get our prices

J. W. Wyatt, Dealer, Irma

A light car with the equipment of a big car at a low price, built for western roads. No cranking, no broken arms, lights when you want them. Three speeds forward and reverse, one man top, and an engine that never gives trouble.
 Come in and see the 1919 Model. It is a nice looking as well as good car. We have a first class mechanic in charge of repair department. All makes of cars repaired.

Hardy & Dickson, Agents

John Deere Machinery

The John Deere Plow is the oldest plow on the market, the first steel plow being made in 1837 by John Deere. Since the Deere Plow Factory has continued to make an up-to-date high grade plow and today are making one third of the plows used in North America—more than 500,000 plows in 1915.

We have a good stock on hand and want you to look them over before buying.

J. W. WYATT

Plow Shares for all Makes of Plows on Hand

Red Cross Plant Sale.

The local Red Cross intend holding a sale of potted plants in Hardy & Dickson's garage on Saturday afternoon, May 10th. Ice cream cake and afternoon tea will be served.

The Oddfellows will march to church on Sunday evening in commemoration of the 100th anniversary of the lodge. The choir will repeat a part of the Easter music at this service.

With Russell Love in Scotland.

Perth, Scotland April 1st. Dear Father:

We commenced our tour this morning and spent the day at Harvieston Castle. Mr. E. Kerr's place, about a mile from Tillynally. It certainly was an eye opener for me. Of course he is a man of wealth and has therefore been able to buy the best animals in the country. He started twenty years ago by studying agriculture in English universities and by getting practical experience from successful farmers whom he visited and worked with. The castle is surrounded by many well arranged evergreens trees and hedges including pines, cedars, boxwood and monkey puzzles give it a tropical appearance and look something like well just what their name indicates. The castle is of red granite and well proportioned. I understand it was originally built for the Archbishop of Canterbury. It has a very high tower, huge high rooms, magnificent billiard room and swimming pool in the basement. There are six maids doing the house work. The stables and barns are of stone with concrete floors and slate roofs. He has a great love for his work and therefore breeds many types of animals. His cattle are Shorthorns and Aberdeen Angus. We spent most of our time with the Aberdeen Angus of which he has one of the finest herds on record. His cows and bulls have won first prize all over Ireland, England and Scotland. They are a black type cattle with silky skin, almost cylindrical in shape. Not a hump can be seen on their body. The aim is the production of beef. I hope to get some good snaps of them as several of us have cameras. Our party consists of about 40, including as guides and instructors Mr. McCauley, editor of the Scottish Journal of Agriculture and secretary of the Clydesdale Association, Prof. Wallace, head of the School of Agriculture at the Edmonton University, Prof. Watson who organized the tour and Mr. Kerr. There are about 12 Canadians and 22 Americans in the party. Mr. Kerr has also prize Clydesdale and Hackney horses and all kinds and types of poultry and pigeons which he uses for show purposes. His cattle (Aberdeen Angus) are bringing about 2800 guinea. He also has a host of hot houses in which he grows nearly every type of plants and flowers known. He treats his men very generously and they are just as interested in the work as though they owned it themselves. We were entertained to a magnificent dinner in the castle at noon and again at 4 o'clock for tea. We found our host a most unassuming hospitable and thorough person, who took a keen interest in showing us the fruits of his efforts of the last 20 years. The halls of the castle are adorned with trophies cups and medals which his animals have won for him. I have often seen wonderful pictures of prize animals but never saw so many in their native home as they really are. The great surprise of it all is Mr. Kerr's practical feeding system. His cows and heifers are kept in from about Nov. 15th to May 15 and during that time only receive 30 lbs of turnips per head per day with all the straw they wish. No water is given them as they obtain sufficient from the turnips. This keeps them in excellent breeding condition with no extra fat on their carcasses. Its hard to believe but a look at the animals is enough to convince one that the system delivers the goods. Tomorrow we go to Errol Park to see the most famous herd of White Highland cattle in Scotland. Will be back here for the night at 7 p.m. so will try and tell you what I've seen.

With Love,
 Russell.

LOCAL NEWS

F.E. Harvey of the Bapeo Paint Co. was in town Tuesday.

Get a Waterproof Motor Cap this spring. The Co-op has them.

Mr. Tillerens of the Swift Canadian Co. was in town Tuesday.

Stetson Hats still going strong, see the Co-op stock of men's hats and caps.

H.W. Love spent Thursday in Edmonton.

Buy the kiddies a jersey and save yourself a deal of washing. The Co-op has a large varied stock of jerseys.

Wesley McKnight of Napan, New Brunswick is visiting Mr. and Mrs. Fenton.

P. Mildon returned to Edmonton last Monday and will be in Irma the end of this week.

Now ladies be in style by wearing a pair of shoes bought from the Co-op.

R. Fraser, of Scott, Sask., was in town Saturday looking over the town with the object of starting a bakery.

All kinds of ladies Motor Caps at all prices at the Co-op.

Mrs. J.W. Wyatt left Thursday for York, Nebraska. She expects Mr. Wyatt's mother to return with her.

A. McClellan and Capt. Taylor returned to Irma Wednesday to recommence operations at the Viking & Battle Creek Oil Co's well.

W.D. McKay of Wainwright is visiting at the home of Mr. and Mrs. G.A. Tripp. They are just returning from the coast where they spent the winter.

Mr. G.A. Stott returned from Edmonton Wednesday where he had been to meet his son F.R. Stott who just returned after spending some three years overseas with the band of the 151st Regiment.

Constable Rawson took Clarkson Ambler and Ivan Printz of the Irma district to Fort Saskatchewan last Saturday where they were locked up in the provincial jail on a charge of wearing masks and alleged burning of a barn. Clarkson Ambler was recently acquitted of a charge of burning a large stack of hay near Irma last winter.

Rev. T.F. Lund of Viking spoke in the church on Sunday evening past. His subject was "Solid Foundations" and he showed the need of these in different phases of life. We need to build for the future, body, mind, soul. "Other foundation can no man lay than is laid, even Christ." The congregation listened very attentively and the message found its response in the minds and hearts of all.

Remember that if you want value for your money in a small tractor get a Fordson, the tractor with three speeds ahead, the tractor that has 1800 lbs drawbar pull on intermediate and a 40 per cent reserve power on low for the hills and hard places. Not one working part exposed to the dirt and all working parts running in oil all the time. Ask anyone that has one to tell you what they will do. Five of these popular tractors are doing good in the district.

Two Irma Boys Return.

Saturday noon Bruce Henderson returned to Irma after spending some time in France with the Canadian Engineers.

Sunday night Sergt. Allan Harper returned after spending over three years with the Canadian troops. Allan was not expected back till the middle of the week so no plans were made for giving him a reception.

Italy Considers She Has Had Poor Deal

London. — Public opinion in Italy, according to a wireless message from Rome, is much excited by the peace conference for refusing to recognize the Italian claims. Apparently there is a complete truce in party politics and the newspapers are unanimous in blaming the allies. It is declared that feeling is running so high that it might have a disastrous influence on Anglo-Italian relations.

The Italians consider that they have been betrayed by the allies, the despatch says. The whole nation is aroused and has rallied to the support of Orlando and Sonnino. There is a brave army ready to make every sacrifice for the restoration of the program. Many popular demonstrations have taken place and the watchword adopted is "Fiume or Death."

Germany's Idea of League

Suggest World Parliament and International Tribunal

Copenhagen. — The German counter proposals to the league of nations are outlined in a long dispatch from Berlin. The German draft proposes that the league shall embrace belligerent states and all neutral states, which were signatories of The Hague treaty, other states to be admitted by the consent of a majority of the members of the league, but the Holy See to be admitted without this condition. It is proposed that the league shall function through a congress of states and a world parliament, the former to be the chief administrative body, comprising representatives, with equal rights, of all the governments.

The world parliament is to be elected from the parliaments of each state, one representative for every million inhabitants, but no parliament to send more than ten representatives.

Further, it is proposed that two special bodies shall be created, an international tribunal and a mediation bureau, to decide respectively questions of interests. Every difference between states must be submitted to either body.

No Relief for Germany

New York. — The federal reserve board issued an order here authorizing the remittance of funds to the countries of Central Europe, excluding Germany, through the United States relief administration only. United States food stocks, held in Europe by the administration will be used as the medium of exchange.

State to Train Returned Men

Sydney, N.S.W. — The state of New South Wales will bear the cost of training returned soldiers for the government railway workshops. The step will be taken in order to replace men who are leaving the shops through natural causes, and also to meet contemplated extensions of the railway.

Italy Must Forego Claim to Fiume

London. — With reference to the Italian claims the Associated Press learns that under the treaty of London, Italy was entitled to Trieste Pola and part of Dalmatia, but Fiume was to go to Croatia.

Great Britain has advised Italy in her own interests to forego some of her claims, but if the Italians insist on their rights under the treaty, Great Britain and France are prepared to honor their signatures, in which case, as pointed out to Italy, Fiume must go to Croatia.

It is understood that President Wilson issued his statement on his sole responsibility, and that Premier Lloyd George and Premier Clemenceau are still actively seeking to bring about an agreement.

It was learned at Italian headquarters here this evening that the Italian delegates were first apprised of President Wilson's statement when it appeared in the afternoon papers. Premier Orlando at once sent a note to Premiers Lloyd George and Clemenceau asking them if they thought it possible after the publication of this document the Italians could remain in the peace conference. A reply had not been received up to a late hour.

In the statement issued by President Wilson explaining his position on the Adriatic question he declares

Allies Welcome Delay

Will Not Hurry Germans on Account of Italian Situation

Paris. — The date of the arrival of the German peace delegation at Versailles is still not determined, and the allied representatives are apparently not pressing for haste in view of the fact that the uncertainties of the Italian situation might possibly make an early inauguration of formal discussion between the representatives of the allied and associated powers and the Germans impossible. Delays in framing the terms of peace is also a reason for not desiring the speedy arrival of the enemy.

It is said that no final decision has been reached as to according freedom of movement to the Germans as required by Count von Brockdorff-Rantzau, the German foreign minister, regarding possible access by allied newspapers as representatives to the German delegation. Andre Tardieu, who is in charge of arrangements, has flatly opposed any freedom being given the Germans and has insisted that they must continue to be treated as enemies until the treaty is signed.

Secret Treaty Exposed

Telegram Showing Duplicity of Bulgaria and Austria Published

Paris. — The Journal des Debats publishes the text of the military convention between Germany, Austria, and Bulgaria, entered into at German military headquarters in August-September, 1915. Clause eight shows the pressure which caused King Constantine's refusal to follow Mr. Venizelos' advice and support Serbia. The Journal des Debats also publishes a secret telegram showing the sinister duplicity of Bulgaria and Austria. Auguste Gauvain points the moral that the recurrence of such traps as were laid in 1915 will not be prevented unless the guilty states are deprived of power to harm.

May Recall Y.M.C.A. Men

Paris. — The possibility of ordering all United States Y.M.C.A. workers in Italy is being considered by John R. Mott, of the war work council of the Y.M.C.A. There are about 200 American workers in Italy assigned to various units of the Italian army, and Mr. Mott was somewhat perturbed over the possibility that they might become involved in manifestations of anti-United States feeling.

Fiume Complications

Paris. — The situation in Fiume is complicated by the fact that the town as the headquarters of the allied army of the Orient, contains French and British as well as Italian troops. A one-sided Italian occupation of Fiume, it is believed, would immediately provoke a diplomatic and military issue with the European allies.

Hungarians Ask For Armistice

If Soviet Government Abdicates Allies Will Grant Request

Berlin. — The Lokai Anzeiger's Vienna correspondent says that the Hungarian soviet government requested the French mission, through a Hungarian diplomat in Vienna, to send delegates to Budapest to negotiate an armistice with the Rumanians.

"Colonel Cunningham, representing the allies, after communicating with Paris," says the newspaper, "had the Hungarian government informed that the entente was ready to conclude an armistice and immediately suspend the advance of its troops if the soviet government would abdicate and a new cabinet representative of all the bourgeoisie was formed and all the decrees of the soviet government were withdrawn."

British Pacifists' View

Says Terms Submitted to Germany Would Not End War

Huddersfield, Eng. — Philip Snowden, former Liberal and pacifist member of parliament, in an address at the annual conference of the Independent Labor party, said that the peace terms to be submitted to Germany were not peace terms, and would not end the war. "The new war," he continued, "will be a war of systems and classes, in which the democracies of all nations will be ranged on one side against the hereditary oppressors and exploiters. We are not a party of violence. An intelligent and unselfish democracy need not in a country like ours, resort to methods of violence to attain its aims. If revolution has to be achieved in Great Britain by violence, it will come in that way because of the resistance of the old order to the new birth."

Riots at Hamburg

Affected the Unloading of Food Relief Ships for a Time

Berlin. — There have been serious disturbances at Hamburg during the week end. A mob plundered the harbor quarter and clashed with the police, several people being killed and wounded. A dispatch to the Vorwarts says there was a regular riot in the suburbs of St. Paul, west of the city.

A policeman was killed and several others were wounded, but the rioters suffered worse than the officers.

The rioting was renewed, being distributed to mobs in St. Paul. Several police depots were attacked by the mobs and one was captured. London. — The rioting at Hamburg affected the unloading of food relief ships for a time, according to official reports received here, but the work was proceeding with voluntary strike breakers, composed mostly of merchants and men of the professional classes, who realize the vital needs of getting the food unloaded. Until the present outbreak the navy had laborers to control the German laborers, although they had been unwilling to work.

"Black Watch" The Best Black Plug Chewing Tobacco on the Market

Shorter Hours and More Pay

Increased Wage Scale Asked by Winnipeg Workers, Led by the Railway Men

Winnipeg. — Practically all classes of workers are included in organized labor's drive for the 44-hour week and increased wages in Winnipeg. Negotiations affecting thousands of employees and almost all classifications of industry are being carried on daily in an effort to reach a settlement before working agreements expire on May 1.

Railway shippers demand a 44-hour week and an increase of 20 to 30 cents per hour in pay. A union committee will leave Winnipeg before the end of the week to negotiate with the railway board in Montreal. Their demands are backed by 37,000 shippers throughout Canada. About 6,000 Winnipeg men are affected.

Amend Defense of India Rules

Simla, India. — The governor general has promulgated a fresh ordinance providing that any court martial or commission may sentence a person convicted under martial law to transportation for life or ten years or rigorous imprisonment for seven years and not exceeding fourteen years. The defense of India rules have also been amended providing that no newspaper can be printed or published without previous sanction by the local government.

Against Prohibition

Wellington, N.Z. — The majority against prohibition in the New Zealand plebiscite is now placed at 1,860 by official returns.

French Losses in War

Number Over Three Per Cent. of Population

Paris. — The Petit Parisien publishes a table of the relative losses of the allies in the war, according to which France, with a population of 38,762,000 mobilized 9,717,000 men, representing 20 per cent. of the population, and her losses (killed) numbered 1,308,000, or 3.37 per cent. of the population.

England mobilized 5,704,000 men, or 12.6 per cent. of the population, and her losses were 680,000, or 1.5 per cent. of the population. The British colonies are not included in these figures.

Italy mobilized 5,250,000 men, which represents 15.1 per cent. of the population, and lost 460,000, or 1.32 per cent.

The United States mobilized 3,800,000 men, or 4.1 per cent. of the population, and her losses, 122,000, represents a percentage of .033.

Ban on Civil Aviators Lifted

British Agree to Civil Aviation Schemes and Provide for Overseas Routes

London. — The ban of civil aviators will be raised May 1 in Great Britain. The air ministry, in preparation, has mapped out various air routes along which the civilian aviators will find aerodromes and mechanics for their machines. These thoroughfares will not only enable direct communication between London and Ireland, and London and the north, but also cater to some of the more important towns in the industrial districts.

Aerodromes for traffic to and from overseas are for the present time limited to four. At these overseas aerodromes must land for examination of goods and passengers. The aerodromes are, for continental traffic at Lympne, in Kent; for Dutch traffic, at Hadleigh, in Suffolk; for Scandinavian traffic, at New Holland in Lincolnshire, and for traffic direct to London, at Hounslow in Middlesex.

Rumanians Advance

Acting Solely Under Orders of the Allies

London. — According to authoritative information, Rumania is acting solely under the orders of the allies and purely with the object of stemming the Bolshevik advance.

No permanent occupation of territory is contemplated without sanction of the peace conference. While the danger of Bolshevik attack on Rumania is not entirely removed, it is believed that the position is much improved. The situation in Rumania grows brighter daily. The spirit of the army is magnificent and the continued arrivals of food, equipment and stores is having great effect.

Berlin. — The soviet government in Hungary has asked for a suspension of the Rumanian offensive and the arrangement of an armistice, according to Vienna reports received here. One of these reports quotes the Neue Wiener Journal to this effect. The dispatch adds that the government of Bela Kun has announced its readiness to retire in favor of a Socialist cabinet.

Women to Make Report

London. — The law providing for the nationalization of women in northeast Russia has been passed in one province as the result of popular outcry, according to information reaching London from Stockholm.

The commissary of Vladimir has by decree appointed a committee of women, who are to inquire into the operation of the law, and make a report with the least possible delay. His action has been approved by the local Soviet.

Bremen in State of Siege

Berlin. — The situation in Bremen has become serious. Advances received here state that a state of siege has been proclaimed by the senate and that the publication of all newspapers, pamphlets and placards has been prohibited. Private persons are not allowed to use the telephones or the telegraph, letters are being censored and the restaurants, theatres, moving pictures houses and schools have been ordered closed.

Cave-in at Granby Mine

Grand Forks, B.C. — An immense cave-in has occurred at the Granby mine at Phoenix, the rails of both the Great Northern and Canadian Pacific being stopped nearly a hundred feet above the cavity. No serious damage has resulted, except from interfering with shipping facilities. Such an occurrence not being unexpected, residents in adjacent homes are being moved as a precautionary measure.

Bolsheviki Deserters Are Joining Siberians

London. — Reuter's learns that the Bolshevik headquarters staff is hastily evacuating Orenburg, on which General Dutoff's army is advancing. General Dutoff has already recaptured Orsk. Larger number of Bolshevik deserters have joined the Siberians and are fighting excellently. Peasants in the liberated districts are also joining Admiral Kolchak's forces in large numbers.

Correct Misleading Statement

Paris. — Moscow telegrams have appeared in the French press stating that the fortress of Peresop in the Crimea had been occupied by the Bolsheviks owing to the delayed arrival of the Greek contingents. Owing to these statements, and others reflecting on the efficiency of the Greek troops, the Greek legation has issued a note to the press denying the alleged assertions and stating that the Greek troops, which, together with a French force of equal size, were detailed to hold certain ports on the Black sea against the Bolshevik advance, were under the command of General Berthelot, and had always obeyed the orders received from the French command.

Archangel. The ice in the Pechora river is now breaking up near the junction of the River Vaga and according to information at Archangel, action may be expected by Bolshevik gunboats within a short time. The Bolsheviks are also reported to be massing considerable forces in the sector south of Kosh. The fronts were generally quiet.

Growth of British Air Force

ASTOUNDING RECORD MADE DURING PERIOD OF THE WAR

London. — The air ministry has published an astonishing record of the work of the air force during the war. It states that before the war the air force consisted of 272 machines, 197 officers and 1,647 men, while in October, 1918, there were 22,171 machines, 27,906 officers and 263,842 men.

From July, 1916, to the armistice, the air force on the western front brought down 7,054 enemy aircraft dropped 6,042 tons of bombs and fired over ten and a half million rounds at ground targets.

A Moderate Priced Bungalow

GROUND FLOOR PLAN.

This is an especially attractive, moderate-priced bungalow, easily heated, where the kitchen, dining room and parlor can be used, when desired, as one room. There is good cupboard space, also sink and large draining board. The front vestibule with a place for coats, the summer kitchen having stairway to the cellar, are points of interest. It will be noted that the chimney is in the centre of the house. Many people believe that a cleaner chimney and better draught are thus afforded.

Britain Will Restore Forests Tyroleans Want Independence

Trees Will Replace Heavy Timber Cut Down During War

London. — Two hundred thousand acres of forest land in Great Britain are to be replanted at a cost for planting and maintenance the first ten years of \$17,000,000, according to an announcement by the government. The trees will replace some of the heavy timber cut down during the war and provide additional forests, so that the country may be independent of other timber sources in case of emergency.

Foresters are being trained and the necessary saplings are being prepared. If the experiment is successful, it is proposed to increase the acreage of re-forested land to 1,770,000 acres within the next 40 years.

Mission Involved in Riots

Tokio. — Special dispatches from Korea state that members of the Christian mission at Teigonari, near Seoul, clashed with gendarmes during a riot there, the officers firing upon a mob, killing twenty and wounding many of those engaged in the demonstration.

Complain That Italy Wants to Swallow Up Their Country

Paris. — Tyrolean claims to recognition as an independent nationality are set forth by the delegates of the Tyrolean national council in Switzerland, Walter Lutzel and Dr. Otto Guggenberger, in a lengthy memorial. The hardy mountaineers of the Tyrolean Alps complain that Italy wants to swallow up their country, which was part of the former Austrian empire and furnished the former Emperor Charles' army with one of its crack regiments, the Tyrolean sharpshooters.

German Envoy Recognized

Berne. — The federal government has accepted letters accrediting Dr. Adolf Muller as German minister to Switzerland, thus formally recognizing the German government.

Paris. — King Victor Emmanuel has telegraphed to Premier Orlando commending his action and insisting that there be no recession from the position Italy has taken.

PIMPLES ON FACE CUTICURA HEALS

Caused Disfigurement, Itchy and Burning, Had Restless Nights.

"My face came out in little pimples that were sore, and I scratched them constantly, and then they turned into scales, causing much disfigurement. The skin was so itchy that I scratched it by scratching. The burning was fierce, and I had many restless nights."

"This trouble lasted about a year before I used Cuticura Soap and Ointment, and after using three cakes of Soap and two boxes of Ointment I was healed." (Signed) W. Byrns, St. Basile, Que., Nov. 23, 1918.

For free sample of Cuticura Soap, Ointment, and Talcum, your daily toilet preparations.

For free sample of Cuticura Soap, Ointment, and Talcum, your daily toilet preparations.

Budapest Fears Anarchy

Work Begun at Munition and War Material Factories

Budapest. — This city is going through a crisis worse than that of April 3. There is apprehension that there would be a violent swing to anarchy with the Socialists losing control to Bolshevik leaders like Bela Kun and chiefs of the Red Guard. Looting, which hitherto has been held in check, or legalized as the "nationalization of property," and the assassination of the old political leaders and the aristocrats are feared.

Reports are current that the Rumanians and Czechs have received orders from the allies to march on Budapest. This is increasing the uneasiness here. It is felt, however, that the Rumanians are advancing merely to occupy the territory set aside for them in the allied note of March 20, which resulted in the resignation of Count Michael Kroyli, former premier.

The fact that the communists are unable to prevent the allies from occupying the districts involved is weakening the influence of Bela Kun and is causing violent hatred against the allies among the Hungarians.

London. — In obedience to orders from the soldiers and workmen's council work was begun at munition and war material factories in and around Budapest, according to a Vienna dispatch to the Mail.

Opposed to Feeding Russia Archangel. — Lieut. Gen. Eugene Karlovitch Miller, head of the Archangel government, told the Associated Press that he was absolutely opposed to the plan of Dr. Friedtjof Nansen for feeding Russia. Other officials on all hands express similar views.

General Miller said: "The proposition to feed our enemies comes at the moment of victory is near for us, and it is entirely outside the question to think that we should cease fighting in order to permit provisions to reach our enemies."

Minard's Liniment Cures Dandruff.

Disturbances in Hamburg. — A state of siege has been proclaimed in the important German port of Hamburg and the suburbs of Altona and Wandsbeck, according to advices received here from Hamburg. In consequence of the disturbances in Hamburg, the police have received orders to shoot persons carrying arms, plundering or fighting against the national police.

Minard's Liniment Co., Limited.

Gentlemen, I had my leg badly hurt, the pain was very severe and a large swelling came above the knee. I expected it would be serious. I rubbed it with MINARD'S LINIMENT, which stopped the pain and reduced the swelling very quickly. I cannot speak too highly of MINARD'S LINIMENT.

AMOS T. SMITH, Port Hood Island.

New Oil Refinery at Regina

Regina, Sask. — T. N. Clayton of Minneapolis, assistant general manager of the Continental Oil company, stated definitely that the new refinery for western Canada would be erected in Regina and construction work would start in June.

CHILDREN NEED HELP

Striking doesn't cure bed-wetting. — The trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

MRS. M. SUMMERS, Box 42 Windsor, Ont.

Russian Troops Advance

Archangel. — By an advance of approximately 20 miles southward over a road paralleling the Murmansk railroad line, about 30 miles to the east Russian troops operating with the allied Murmansk force have reached a point within easy striking distance of Lake Onega, which is connected by a chain of lakes and canals with Petrograd.

Special Prizes for Soldier Settlers

Ottawa. — The special prizes granted by manufacturers of farm implements, harness and other farm accessories to soldiers settlers who apply for the land and loan benefits of the soldier settlement act will be extended to any bona fide settler who is eligible to secure the benefits of the act by reason of his military service, but is unable to finance his own transactions.

Catarrh and Dyspepsia

Undermined the System and the Nerves Gave Way—Hospital Treatment Failed—Read How Cure Was Effected

Preceville, Sask., April 29. — This letter will give you an idea of what you may expect from this combined treatment of Catarrh. Dr. Chase's Catarrh Powder affords relief from the stuffed-up air passages, headaches and annoying symptoms of catarrh, the nerve food enriches the blood and builds up the system, so that the disease is entirely overcome. This is the ideal treatment for catarrh and its ravages on the human system.

Ed. L. Jones, Preceville, Sask., writes: "I suffered for some time with catarrh and dyspepsia and my nervous system became quite run down. My food disagreed with me, and I was constantly bothered with indigestion. I also suffered from frequent headaches. I tried several doctors, and was in the hospital for a time, but could get no relief from any treatment until I began using Dr. Chase's Nerve Food and Catarrh Powder. This combined treatment has done wonders for me. I never have a headache now, and am feeling fine. The Nerve Food has built up my system, and the Catarrh Powder, which I am still using, is helping my catarrh greatly. I intend to continue its use until completely cured."

Mr. E. L. Jones states that he has found Dr. Chase's Kidney-Liver Pills splendid for weak or lame back. He is personally acquainted with Mr. Ed. Jones, and believes his statement regarding Dr. Chase's Medicines to be true and correct. — Mr. George Downs, J.P.

Dr. Chase's Catarrh Powders, 25 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto, Look for the portrait and signature of A. W. Chase, M.D., on the box you buy.

Big Land Movement at Morris

Morris, Man. — A large number of American settlers are arriving here this spring and they have been quite a heavy land movement all the season. Weather conditions are slightly later than last season.

They Cleanse While They Cure. — The vegetable compounds of which Carmel's Vegetable Pills are composed, mainly dandelion and mandarin, clear the stomach and intestines of the debris of indigestion, store the deranged organs to healthful action. Hence they are the best remedy for indigestion available today. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

New System for Water Supply

Regina, Sask. — Moose Jaw is moving to secure a new source and system for its water supply. At a public meeting there recently it seemed to be the general opinion of the members of the board of trade that the only solution for a permanent water supply was going to be the Saskatchewan river, and that a system could be completed for \$4,000,000.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. Kellogg's Asthma Remedy brings the user to perfect rest and health. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Alberta to Borrow \$4,000,000

Edmonton, Alta. — The legislature has passed a bill authorizing the lieutenant-governor in council to obtain a loan of \$4,000,000, of which \$2,000,000 is for telephones and the remainder for general purposes named by the legislature.

We often hear of the sweet simplicity of childhood, yet every mother considers her baby cunning.

With EGYPTIAN LINIMENT For Sale by All Dealers Douglas & Company, Nanapan, Ont.

Flatly Impossible

"Yes," said Simpkins, "I wanted to do my bit, of course, so I thought I'd raise some potatoes."

"Well, I thought I would do that," said Smith, "but when I looked up the way to do it, I found that potatoes have to be planted in hills, and our yard is perfectly flat."

Minard's Liniment for Sale Everywhere.

To Relieve Unemployment

Allies May Supply Raw Materials to German Factories

Paris. — The supreme economic council will meet to consider proposals to grant a limited supply of raw materials, notably cotton, to Germany, to enable the factories there to start work and to relieve the unemployment, which is said to be at the bottom of much of the disorder in Germany. The council, it is said, also will revise regulations for German exports required to pay for food imports and probably will discuss the new economic situation created by the slackening of the blockade regulations as applied to Germany's neutral neighbors.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Dr. Chase's Catarrh Cure. Dr. Chase's Catarrh Cure has been taken by catarrh sufferers for the past thirty years, and has become known as the most reliable remedy for Catarrh. Dr. Chase's Catarrh Cure acts through the blood on the mucous surfaces, expels the poison from the blood and healing the diseased portions.

After you have taken Dr. Chase's Catarrh Cure for a short time you will see a great improvement in your general health. Start taking Dr. Chase's Catarrh Cure today. Sold by all Druggists, 75c.

Greeks Repatriated

Washington. — Repatriation of nearly 60,000 Greeks, who were removed from their homes during the war by the Bulgars, has been practically completed. Reports received at American Red Cross headquarters here said that the Bulgars tried in every way possible to impede the repatriation work and endeavored to conceal the fact that thousands of the Greeks had died during their internment from starvation and exposures.

Why should a woman have two ears and only one tongue when everybody knows she would rather talk five hours than listen five minutes.

An Underground School

Returned Soldiers Get Instruction in Idaho Mine

Boise, Idaho. — Idaho boasts a school unique among its educational institutions. Smith-Hill Vocational school, conducted 1400 feet beneath the surface of the earth. This school is at the Morning Mine, at Kellogg, Idaho, and the persons enrolled are in the main returned soldiers who are learning the elements of actual mining underground. The school is conducted by Frank Skeels, a mining engineer with long experience in practical mining. Instruction is also given to classes above ground, but this is purely practical work in running a drift, operating air compressors, mucking, and like tasks.

Yes! Everybody Takes Cascarets

Only 10 cents! Harmless cathartic for sluggish liver and bowels

Feed Bully. Cheer up! Take Cascarets to live your liver and clean the bowels. Get rid of the headachiness, bad breath, coated tongue, sallowness, sour stomach and gases. Tonight take Cascarets for children. They gladly take this pleasant candy cathartic because it never gripes or sickens like other things.

Prisoners Liberated and Armed

Copenhagen. — The present authorities at Munich, according to advices received here, have liberated and armed Russian prisoners of war, who have been confined in the camp at Puchheim, on the outskirts of the city. A Russian guard is now patrolling the Munich railroad station.

THE BEST MEDICINE FOR LITTLE ONES

There is no medicine for little ones to equal Baby's Own Tablets. The Tablets are a mild but thorough laxative; pleasant to take; do not grip, but gently cleanse the bowels. The little one of constipation, indigestion, colic or any of the other minor ailments, concerning them Mrs. Monroville, Ed. River Bridge, N.B., writes: "I believe Baby's Own Tablets are the best medicine for little ones I have ever used. From my own experience I would recommend every mother to keep a box on hand." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Is Your Nose Plugged? Have You Catarrh?

If Subject to Colds, Here Is Real Good Advice

Don't load your stomach with cold syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Catarrhzone, which cures colds in ten minutes. Even to the lungs goes the healing vapor of Catarrhzone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhzone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis, or throat trouble if Catarrhzone is used. Get it today, but beware of dangerous substitutes meant to deceive you for genuine Catarrhzone. Large size, two months' treatment, costs \$1.00; small size, 50c; sample size, 25c; all dealers or The Catarrhzone Co., Kingston, Canada.

Survey Catle Grazing Location

Calgary, Alta. — A. T. Cooper, from Fossil, Oregon, has arrived at Peace River to survey the country with a view of locating a cattle grazing location. Mr. Cooper has a herd of Herefords, which he purposes moving into the north Alberta country. He will probably go north down the Peace to the Battle River district where there is lots of open grazing country and a plentiful supply of hay available to be put up each season for winter feed.

Give your commands more clearly

ST. VALENTINE THE COYOTE

SUNDAY SCHOOL LESSON

LESSON FOR MAY 4 — MAN MADE IN THE IMAGE OF GOD

1. The Creation of Man. (Gen. 1:26-28).

1. Time—when the earth, his home, was ready for him. The order in creation shows design on the part of God. He anticipated man's need in storing the coal in the earth, piling up minerals in the rocks, storing electricity everywhere, causing the water to gush from the valleys and hillsides preparing plants and herbs for the healing of man's injuries and food and clothing adapted to every climatic condition.

2. His nature (v. 26, 27). He was created in the likeness and image of God. This act was preceded by a special counsel of the Godhead. It was said, "Let us make man." This precludes the foolish and wicked assumption that man descended from or through the brute. He came into being by a special creative act of God. This creative act is confirmed by Christ (Matt. 19:4; Mark 10:6). With such testimony we can dismiss the evolution theory as to man's origin as a human vagary. This likeness and image is not physical and bodily, but intellectual. (Eph. 4:24) and moral. (Col. 3:10). Man is spirit, soul and body (1 Thess. 5:23). God's likeness is reflected in man's tripartite nature. As there is a trinity and unity in God, so there is a trinity and unity in man. Spirit is the highest part of man, that which makes it possible for him to know God. The soul is man's self-conscious life, the seat of his emotions and desires. The body is the seat of the sense, the agency by which he knows the world. God made man with a personality capable of having fellowship with himself, with whom he could share his glory.

3. His rank and power (v. 26, 28). Man, the last in creation, was placed above all else, over all the rest of creation. Being in the likeness and image of God, he was fitted to rule. How far short man comes of living up to the position given him by the Creator! The first man was not a savage, neither a baby. Fresh from the Creator's hands he possessed such lofty powers of intellect as to enable him to name the beasts as they passed before him (Gen. 2:19, 20).

2. Man Alone in Paradise (Gen. 2:7-9).

Adam had a most beautiful place in which to live. "Pleasant to the eyes, and good for food," describes his surroundings. His environment was in keeping with his nature. Eden was only fit for him in an unfallen state. As soon as his nature was wrecked, out he must go. Paradise with all its splendor could not satisfy him. His heart was desolate. Reciprocal love is the only thing that can satisfy the heart of man. Animals of all varieties surrounded him, but none were adapted to be his companions. To accentuate this need God caused the animals to pass before Adam. He was differentiated from all the animals in that he was a personality. He was endowed with the power of love, therefore only a being who could love in return could satisfy him. To meet this need woman was made for man. They had minds alike; they had spiritual natures alike; therefore they could commune together about the things that surrounded them and about God.

Man was made from the dust of the ground and woman was taken from his side. She is therefore one removed further from the earth than man. The fact that woman was made from man's rib points to unity, similarity and equality. God charged this first pair with the responsibility of replenishing the earth (Gen. 1:28). Marriage is a divine institution and most sacred for God made them male and female and performed the first marriage ceremony. In view of this, polygamy and divorce are grossly criminal. Marriage is the fountain-head of life, religious, social and national, therefore corruption here is most fatal.

Piles Cured in 6 to 14 Days

Druggists refund money if FAZO OINTMENT fails to cure itching, blood, blood, or protruding piles. Soap irritates. Sooties and Heals. You can get relief after the first application. Price 5c.

The wisdom of a woman who is vain of her beauty is equal to that of a man who is vain of his brain.

Laugh When People Step On Your Feet

Try this yourself than pass it along to others. It works!

Ouch! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is an ether compound, which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Will Re-organize 95th

Regina, Sask. — The 95th Saskatchewan Rifles, the pioneer militia unit in the province, is to be reorganized here and will be offered by returned men.

Much Attached

"How do you like me for a traveling companion?" asked the detective, as he handcuffed his prisoner to himself.

"Oh, I'm very much attached to you," replied the prisoner, promptly.

I.O.O.F. Church Services.

On Sunday night, May 4th, the Irma Lodge I.O.O.F. will attend church in a body. This is the 100th anniversary of the Oddfellows Lodge in America and special efforts are being made to have all Oddfellows commemorate the anniversary. The local lodge extend a hearty invitation for all visiting brothers to join with them on this occasion. All able to attend should be at the lodge room at 7.15 and march to the church Rev. C.J. Hoeken will have charge of the service.

U. F. A.

The regular monthly meeting of the U. F. A. will be held in the Co-Operative hall on Saturday afternoon May 3rd at 2.30. The matter of securing wre for the association will be dealt with. The action of the local in regard to political activity is to be decided upon and delegates are to be appointed to a district convention soon to be held.

Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Re-construction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of Service unbroken till the end.

For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction re Government repatriation plans, and Sunday Services.

2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free canteens, cigarettes, candies, etc.

3. Red Triangle men on every troop train to provide regularly free drinks, canteens and cigarettes, organize games and sing songs, and furnish information.

4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.

5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.

6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.

7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.

In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

For Canada's Manhood

The Reconstruction program of the Y. M. C. A. includes the following vitally important developments:—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training; Bible Study groups; summer camps; conferences; service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.

2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.

3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the industrial workers of our cities by meetings, entertainments, games and sports.

4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.

5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

Red Triangle Campaign
\$1,100,000 May 5 to 9
Canada-Wide Appeal

social spirit among the industrial workers of our cities by meetings, entertainments, games and sports.

Y.W.C.A.

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

National Council, Young Men's Christian Associations of Canada

EDITORIAL

Canadian Citizenship

A problem which has long confronted Canada, and which it has been the aim of all governments, Dominion and Provincial, for the past quarter of a century and more, to solve, has been how to secure and retain population. Governments in the past have, unfortunately, devoted more attention and spent more money in endeavoring to secure population than they have to retaining that population when secured, and more particularly to retaining in Canada our own Canadian born.

With enormous unsettled tracts of land only awaiting settlement to become productive and wealth-producing, the Dominion government adopting a free homestead policy, created a most extensive immigration department, and spent millions in advertising and other propaganda to induce people in all countries to come to Canada. For years these efforts met with little success, and the recurring decennial censuses revealed the fact that Canada was not even retaining its own natural growth in population.

Naturally, but nevertheless unwisely, governments at Ottawa and in some of the provinces, both Liberal and Conservative, in their efforts to secure immigration neglected to exercise care in the matter of quality of new Canadian citizens and devoted their energies to obtaining quantity. This led to the granting of exceptional privileges to various sects and groups of people, and conferring upon them exemptions from the discharge of national duties which all British and Canadian born subjects were called upon to fulfill. Exemption from military service was granted; special privileges in regard to language, education, and peculiar religious beliefs and other national customs were freely given, and the right to live in isolated communities apart from other citizens was not only admitted, but even encouraged.

As a result of these policies, Canada has received thousands of people who claim, and have a legal and treaty right to claim, special rights and privileges which are denied to Canadian born citizens. Even before the Great War thoughtful Canadians, anxious about the future welfare of their country, were becoming seriously alarmed over the resultant situation, and it only took the Great War, with all its demands of patriotism, sacrifice and service on the part of Canada and its people, to arouse the whole nation to the danger which threatened its future if these policies were persisted in and Canada became the home of numerous and ever increasing groups of unassimilated races adhering strictly to the language, customs, passions and prejudices they brought with them from foreign lands.

It is no use merely lamenting over the mistakes of the past. At the time these policies were adopted and put into effect they were approved by parliament and a majority of the Canadian people. Nor is it right to blame these non-British born people

Canada invited them to come here, and of her own free will, granted them special rights and privileges in the event of their coming. As a nation we must honorably live up to the agreements we then made and the pledges we gave.

But all such agreements and undertakings should be terminated forthwith, and should not apply to any future immigration to this country. From this time onward Canada's policy should be absolutely against granting special privileges on conferring special rights on any individual or class of individuals. "Special privileges to none" must be our watchword. All Canadian citizens should enjoy equal rights and equal privileges, and should be called upon to assume equal responsibilities; there should be no exceptions. Furthermore, all residents of Canada should, while they are residents of this country, be Canadians pure and simple and nothing else, without special privileges, exemptions or favors of any kind.

Every resident of Canada, whether he be Canadian or British born, or of alien birth, should be expected and required to render full and loyal service to Canada at all times, in the emergency of war as well as during the happy times of peace. At the same time all present alien residents who are loyal and sympathetic to Canada and law-abiding citizens should be treated as Canadians. Because of their nationality they should not be treated harshly or unjustly. And the loyal, sympathetic law-abiding among these people constitute, without question, the vast majority of their number. But those who are disloyal, whether aliens or British and Canadian born, should be deported or forced to be law-abiding.

Any immigrant to Canada who is unwilling on entry to take an oath that he subscribes without reservation to all the obligations of Canadian citizenship as they may be determined from time to time by the proper authorities, and that he asks for no special consideration by reason of his language, his religious faith or his national customs, or who entertains any belief or renders allegiance to any foreign potentate or organization or is bound in any manner whatsoever to disregard the law of Canada, should be denied admission to Canada.

Canada still needs and must have population. We need quantity, it is true, but above all we must have quality, and if we cannot have quality with quantity then quantity must be sacrificed. Canada can better afford to wait than make the mistake of filling up her unsettled areas with people who are not willing to become real, out-and-out Canadians. Canadian citizenship must be a prize to attain and value; not something to be given away at bargain counter rates in order to secure immigration. The mistakes of the past must never be repeated.

Constabulary in Vancouver
Vancouver, B.C. — For the first time in the history of the force, the Royal Northwest Mounted Police are to be represented by a detachment in British Columbia. Premises have been secured for use as gables and barracks. The headquarters of the British Columbia detachment of probably 450 men will be in Vancouver. Hitherto the famous force has been confined to the three prairie provinces of Manitoba, Saskatchewan and Alberta. Major Fitzhugh is in command in this province.

Huns Observe Easter

Berlin. — The Easter holidays apparently brought to most of Germany what countless appeals to patriotism and warnings against strikes have failed to accomplish—comparative quiet and order. The nation spent its first real holiday since the revolution in November in peaceful pre-war occupations and recreations. There were no reports of any disturbances in any district except in Bavaria.

No man or woman should huddle about because of corn when so certain a relief is at hand as Holloway's Corn Cure.

All-Electrical Manufacture

Great Britain Fully Equipped To Meet All Requirements
A great deal used to be said about the dependence of the British electrical industry on German and other foreign sources of supply, but most of what was alleged about the backwardness of British production was inaccurate. Britain was by no means the only country in which the Germans had managed to secure a foothold in certain "key industries," and the electrical manufacturers of Great Britain deserve far more credit than has ever been given them for the way in which they managed to keep on producing almost every class of electrical plant and apparatus in spite of German mining and gas attacks. The ministry of reconstruction recently formed an engineering trades (new industries) committee to investigate the production of goods either in small or insufficient quantities. This committee had an electrical branch committee, and in the report of the latter we naturally find mention of all the articles alleged to be "captured" by the Germans. About sixty different kinds of articles were considered, but the branch committee reported that in the majority of cases they do not come within the scope of their reference. With few exceptions, they report "ample manufacturing facilities undoubtedly exist, and in many cases, existed before the war, for meeting the whole requirements of the United Kingdom and the colonies and, in certain cases, of taking care of the export trade to other countries." The legend of "dependence on German enterprise"—so sedulously fostered by German agents—was the fact that the existing British manufacturing facilities were not fully employed. Under the new regime, with the British electrical manufacturers organized in powerful combinations and working together in energetic associations for research and commercial progress, we shall hear no more of the legend. The few gaps which existed, as in certain insulating materials, electric glassware and porcelain and so on, have either been closed or are about to be closed. British electrical manufacturers are now fully equipped to supply, in any part of the world, any electrical demand from a complete electric power undertaking or railway system to a pocket lamp.

Revert to Old Hours
Regina, Sask. — Word was received by the Regina banks in the form of a circular letter that on and after May 12 all banks will revert to the office hours in effect before June 1, 1918, viz: 10 a.m. to 3 p.m., and on Saturdays from 10 a.m. to 12.

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subside lumbago and overcome rheumatism, it has no equal. Therefore, it should have a place in all home medicines and those taken on a journey.

Boys' and Girls' Clubs

J. G. Rayner, director of boys' and girls' clubs at the University of Saskatchewan, reports a great deal of interest taken in the formation of boys' and girls' clubs in different parts of the province. There are now nearly 3,000 boys and girls enrolled in the province and new clubs are being formed nearly every week. There will be four contests this year, pig raising, poultry raising, potato growing, gardening and canning. Only boys and girls of the ages of ten to fifteen are enrolled, this taking in a larger number of boys and girls who have left school.

The British flag is the first standard of a Christian nation to float over Constantinople as that of a conqueror.

Philosophers take things as they come, but rag pickers and pickpockets take as they go.

Mongol Independence
Tokio. — Two leaders of the Mongol independence party have arrived in Tokio to begin a movement for the political independence of Mongolia and Manchuria. It is proposed to unite these two Chinese provinces in one state.

RHEUMATISM CAN BE CURED

The Trouble is Rooted in the Blood and Can Only Be Cured Through the Blood

In the days of our grandfathers rheumatism was thought to be the inevitable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as every young person. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now medical science understands that rheumatism is a disease of the blood and that with good rich, red blood any man or woman of any age can be cured by killing the poison in the blood which causes it. For this purpose Dr. Williams' Pink Pills for Pale People is the most effective. It is the use of these pills that has robbed rheumatism of its terrors. In proof of Dr. Williams' Pink Pills for Pale People to cure this trouble, Miss Jennie Stockdale, Hall's Bridge, Ont., says: "Two winters ago I was taken with a bad attack of rheumatism, and was in bed for over two months, most of which time I could not sleep or enjoy rest or night. The trouble also affected my nerves, which were very bad. I tried several remedies but did not get any help from them, and then, acting on the advice of a friend, I decided to try Dr. Williams' Pink Pills. I soon felt that the pills were helping me, and after taking eight boxes I am glad to say I was able to go about again as usual, and am now enjoying the best of health with no return of the trouble. Dr. Williams' Pink Pills make me feel like an altogether different person. I earnestly advise all suffering from rheumatism, nervousness and kindred troubles not to delay using Dr. Williams' Pink Pills as, like myself, I am sure they will find cure through the blood. You can get Dr. Williams' Pink Pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$3.00 from Dr. Williams' Medicine Co., Brockville, Ont."

High Price for Butter
Winnipeg, Man. — A record price for creamery butter on the Regina market was established last week when the Saskatchewan Co-operative Creameries Limited, sold a carload for shipment to Vancouver at 58 cents a pound.

MEN SWEAR—WOMEN COMPLAIN

Just because their corns ache—easy to cure them with Putnam's Corn Extractor; it acts painlessly in twenty-four hours. For corns, warts and callouses the only thing is "Putnam's"; try it, 25c at all dealers.

Settlers for North Country

Edmonton, Alta. — There is a very extensive movement of settlers and stock into the north country. During the past week parties from Saskatchewan, Manitoba, Ontario, Nebraska, Iowa and other points have passed through here on their way to the Peace River and Grande Prairie districts. In most cases they are taking considerable live stock with them, which would indicate that they are settlers that are familiar with the type of farming most successfully followed in those districts.

U.S. Casualties in Russia

Archangel. — Since the landing on the Archangel front last September, the United States troops have suffered 528 casualties. Of these 196 were fatalities, there having died of disease or been killed, nine officers and 187 men. The men wounded consisted of twelve officers and 320 men.

The losses of the American north Russian force, during the past month, have been extremely light, as most of the recent fighting has been done either by the British or the newly-formed Russian troops.

Bad resolutions are good ones that have been broken.

Saskatchewan's Rich Clay Deposits

Practically Whole Range of Structural Clay Products Can Be Manufactured

The province of Saskatchewan has exceedingly rich deposits of fire-clays, and other clays from which practically the whole range of structural clay products can be manufactured. The department of the interior of the Dominion have carried on considerable field work, and conducted numerous laboratory tests in connection with these deposits, which are the subject of a very interesting report.

The following comment on these clay resources by N. B. Davis, M.A., assistant engineer of the Ceramic division of the department of the interior, will doubtless interest many readers:

"The importance of the whole Canadian west of the clay resources of southern Saskatchewan cannot be over-estimated. There is an abundance of high grade clays suitable for the manufacture of stoneware, Rockingham ware and white earthenware. The fireclays of the eastern section will make a No. 2 grade of refractory, while the more plastic clays should find a use as bond clays in the making of retorts and other special refractory shapes. They are also adapted to the manufacture of architectural terra cotta, paving brick, face brick and all varieties of burned clay products for structural purposes."

"Before the outbreak of the war in Europe, the immediate future of the clay industry in Saskatchewan promised well. The railways were spreading lines of transportation over the country, crops were fair, and the western farmer was beginning to appreciate something better than a sod shack to live in. Lumber had to be hauled great distances and the price was accordingly high. Prairie fires were teaching the builders with wood the value of more fireproof construction. Altogether, the country was ripe for a better supply of burned clay products."

"With the war, needs have not materially changed. Business is simply marking time for a better monetary condition. The country is essentially a farming one, and with wild boom days over, and the war at an end, normal conditions should soon return."

It is more than likely there will be a considerable development of this industry.

Britain's New Treaty

Madrid. — The financial convention between Spain and Great Britain which had been under discussion for several weeks has been signed. Under the agreement Spain will loan Great Britain 75,000,000 pesetas at 5 per cent. in return for which Great Britain will permit the free importation of oranges and will export 150,000 tons of coal monthly to Spain.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to thousands of children, who, but for the good offices of this superior compound, would have continued weak and enfeebled.

Exhibit of Steers at Chicago

Edmonton, Alta. — Alberta breeders of pure bred cattle have confidence in their ability to hold their own against the best that American cattle men can show, and have decided to have an exhibit of Alberta's pure bred beef steers at the international live stock exposition at Chicago this year. Prof. W. L. Carlyle, with a committee, representative of each provincial association, has been appointed to select the animals to compete at Chicago.

Protect Axles and Traces

Imperial Mica Axle Grease
—smooths the axle spindle and hub socket by filling the tiny surface pores with powdered mica. The acid-free grease defeats friction. Makes axles last longer and loads easier to haul. Sold in sizes from 1 lb. to barrels.

Imperial Eureka Harness Oil

—keeps traces and harness leathers pliable, soft and strong. Weatherproofs leather and keeps it from drying out and cracking. Sold in convenient sizes.

Imperial Eureka Harness Oil

Makes harness pliable, quick and thorough. Simple to operate and saves work.

BOTS AND WORMS

The above is a true photograph of a horse's stomach. No wonder our horses are poor and our children are sick. HORSES EVERY DAY by eating the inner membrane from the stomach, and in some cases they eat holes thru. You can remove every bot and worm if you wish, with BOT & WORM EXPELLER. It's in powder form, and you mix it with the feed. It's absolutely harmless. Horse owners write they have removed from 500 to 1000 bots from one horse with BOT & WORM EXPELLER. Now is the time to rid your horses of bots. The larger they get the more dangerous they are. They will soon commence to leave the stomach and work back into the intestines, and will feed from the intestines until the latter part of July. At this time they will pass out in their own feces. If you gradually pass from the body. In this case it will mean death. Send for this remedy today. Don't delay. Price postage prepaid, \$2.00 per can, 3 for \$5.00, 5 for \$8.00. Your order will be filled promptly.

The Spirit of the West.

On Thursday the 24th of April, the farm of Ex-Pte J. Heron was captured by his neighbors, who with two exceptions turned out in force, and ploughing 60 acres and seeding 77 presented to the owner who returned from hospital the following day their gratitude for what he had done for them. With 14 gang plows two sulks, six seeders, four packers and 5 sets of harrows. The above was accomplished in an ordinary working day, and every man who took part, felt a little justifiable pride in the result and a contemptuous pity for the two who had refused to help.

Ex-Pte Heron late of the 138th was very badly wounded and unfortunately had a bad relapse which placed him back in the hospital for over four months, and he is still far from well, but we are glad to see him once more amongst us, a word of praise is due to the Roulledge Bros., who the writer has been informed did the organizing.

Dear Mr. Editor,

Kindly allow me through the columns of your valuable paper to thank the many kind friends, who at a great sacrifice to themselves volunteered to seed my crop in on the NE 32-44-10, as I am unable to meet and thank them personally they will kindly accept this as a personal note to each.

Ex-Pte James Heron, Jarrow.

Finish The Job - Pay The Bill.

By Mrs. Marvin H. Lewis.

This is our government. We select the men who make the laws. Therefore, we are responsible. Our citizenship has its obligations no less than its opportunities.

Not only was it necessary for each one of us to bend every energy to win the war, it is now the duty of each one of us to finish the job and pay the bill.

There are only two ways to pay it. One is in taxes, the other by purchasing Thrift and War-Savings Stamps. In the latter case we get a short term, interest bearing baby bond of our government with all the property in this country, your property and my property behind it. No other bond is as good, no other bond is as safe, and it is our duty to buy them.

We are careful to protect our credit by meeting our obligations at the Bank. Are we fully as careful to meet our credit as citizens? Today that credit is at stake. If we do not keep faith, if we do not back up our government, if we do not pay the cost of the peace which came sooner than anybody expected, then we are slackers and have no right to enjoy the blessings of this great, free, country.

Now what is a War Savings Stamp? It is more than the promise of Canada to pay a certain fixed sum of money and a certain fixed rate of interest at a certain definite time. It is our pledge to civilization to Christianity, that we shall meet our great responsibilities growing out of the war. It represents honor, truth, freedom, justice, equality under the law, and the pursuit of happiness. And it represents these just as truly as those brave boys of ours, those human Victory Bonds, who went across the sea with the spirit of crusaders to fight for those priceless things.

Are you willing to do your duty? Are you worth fighting for? Do you value your citizenship? Then finish the job, pay the bill, and be truly thankful for liberty and peace.

\$600 was raised in Vegreville last week towards the support of a baseball team in that town.

Fake Grain Varieties.

(Experimental Farms Note.)

Each year many farmers are the victims of plausible agents who are selling so called new varieties. Making extravagant claims they charge a corresponding price and only too often the farmer who naturally desires more productive varieties if obtainable, pays an exorbitant price for a supposedly new and prolific sort, which is either an old variety camouflaged with a new name or else a selection whose qualities are entirely unknown. Being divisible into classes, these agents and their claims can be grouped conveniently as follows:-

FIRST, those who take a high yielding, prolific variety such as Banner or O.A.C. No. 72 oats, give it another name and introduce it as a new variety.

SECOND, those who are selling a variety that has been multiplied from a peculiar plant or from extraordinary heads found in the general crop. The producer thinking it a valuable variety, offers it for sale before its qualities are known.

THIRD, those who are offering for sale to a few limited customers only, a wonderful variety that was produced by a secret process of selection or else has been grown from a few seeds found in the tombs of the ancient Pharaohs.

A fourth class might be made of those who sell a variety for what it is, but make extravagant claims for its yielding ability. This is well illustrated by the Alaska or seven-headed wheat.

The agent in the first case is a financial shark who is obtaining money by false pretenses. He perhaps does the least harm of any beyond the confusion created in the nomenclature of varieties and the money which he takes from the farmer.

In the second case the agent may be acting in the best of faith and with the conviction that his claims will be justified by the resulting crop. Perhaps they will be, but the varieties are legion that have been introduced in this way and have been found worthless in comparative tests with standard varieties.

The third agent though, is the real out and out grain fakir and should be liable to prosecution. The farmer who is deceived by his pretences almost deserves to pay the price of his credulity.

It is the right of any person who has multiplied out a selection of grain to sell it for what it is and charge any price he sees fit. Against these well-intentioned, legitimate transactions we have nothing to say beyond warning the farmer, that at the best he is likely only buying an old variety and that exceedingly few of these amateur selections are ever of value.

What is advisable is that in every case before buying a variety that he intends to grow as a general crop, the farmer should consult the reports of his nearest Experimental Station. The remedy for the actual frauds that are perpetrated is in his own hands. As long as he will buy the agents will sell, and the efforts put forth by the cereal stations of Canada for the improvement of crops will continue to be partially frustrated.

Here are a few testimonials for patent medicine men: "I have been unable to walk without crutches for a number of years but after using your medicine I ran for office." "I lost my eyesight four years ago. I used a bottle of your eye wash and I saw wood." "I have been dumb ever since I was married, but the other day after taking your remedy I had a speaking likeness taken at the photographers." "Some time ago I lost the use of both arms. Shortly after buying a bottle of your nerve tonic I struck a man for ten dollars." "I had been deaf for many years, but after using your ointment I heard that my aunt had died and left me \$10,000."

EDMONTON EXHIBITION NEWS.

The Edmonton Exhibition grounds are being enlarged by the addition of sixty-five acres lying immediately south, and this will provide ample room for the machinery exhibits and midway, which were badly cramped for room last year. A new Women's building is contemplated, and a beautiful grove of trees in the new section has been set aside for the benefit of parties from outside points who wish to motor to the Edmonton Exhibition, July 7th to 12th, and camp on the grounds. Arrangements will be made to have an office on the grounds where tents, cots and mattresses may be rented at a nominal fee, thus solving the problem of obtaining accommodation. Campers will be required to take their own bedding, and they can either provide their own meals, or get them at one of the many lunch stands. It is hoped that this will enable many from outside to bring their families to the Edmonton exhibition for the week. Manager Stark will gladly furnish further information re this camping ground.

VIKING

Messrs. D.T. Greene, N. Lindholm and F. Stewart, of Jarrow, were business visitors in Edmonton the last of the week.

The dominion wide campaign for the Y.M.C.A. starts next Monday and continues for five days. Note their appeal in this week's issue.

Yorkton Smith has joined the Collier Bros., staff of mechanics. This makes a total of a staff of eight at this establishment.

Lieut. Geo. Stowe was down from Calgary last Friday for a day's visit at the home of his parents, Mr. and Mrs. T.H. Stowe.

Wilfrid Collum was taken suddenly ill Tuesday evening and was sent to Edmonton for treatment. He has been employed on the Chris Wollan farm.

The football club hold practices every Saturday evening and everybody interested in the game are invited out. All players should note this and be on hand.

Hereafter the Empire Cafe operated by Wong Foo will be known as the Royal Cafe. The event will be featured by free ice cream served all day Friday of this week.

Mrs. Lindsay has resigned her position in J.A. Robinson's store to take charge of the ready-to-wear department in the Armstrong store at Wainwright and will commence her duties about May 15th.

Rev. Percy Halstead of Innisfree, will hold service in Clover Lodge School house on Sunday, May 4th, at three o'clock. He expects to continue these services each alternate Sunday after this date.

Jas. Loughlin shipped his three year old standard bred colt "Sunday" to Edmonton last week to have it trained for track purposes. The animal shows promise of developing considerable speed.

W. H. Holiday, of the Whyte & Co. Ltd. business brokers, of Edmonton, was in town yesterday accompanied by a Mr. Jackson, of Great Falls, Montana, who is looking over ranch lands in this district. Mr. Holiday was formerly located at Irma with the Ransom Land Co.

Mrs. S. Adams who is residing with the H. B. Collier family met with a very painful accident Monday afternoon. She was walking from one room to another when she fell and broke her hip. She has been an invalid for some time and is quite advanced in years. Medical attention was immediately sought and the injury relieved as much as possible.

ANNOUNCEMENT

We are just completing our new building and as soon as finished we will be in a position to give you excellent service on your auto. We are installing a gasoline system and will have gas and all kinds of Lubricating Oils on hand at all times as well as accessories of the better makes that have proven their value.

We have a service contract with the Ford Motor Co. and have a good supply of Genuine Ford Parts on hand at present. We need your business and you need us. Come in and see us anyway.

SUMMER SCHOOL RETURNED SOLDIERS

Arrangements have been completed for the summer courses for returned soldiers. This session will open at the University of Alberta, Edmonton, on May 19th next and will continue until September 12th. The purpose of this summer school is to furnish assistance to men whose studies have been interrupted by the war that too much time may not be lost in getting into regular classes again. In some cases men who had left school before enlistment are anxious to resume their studies. Provision will be made for these men also. Returned men everywhere are invited to take advantage of this school.

The school will be so organized to give as far as possible individual instruction. Thus a man may enter with almost any attainment and make as rapid progress as he is capable of. Any returned man who is interested in improving his education with the idea of continuing in some institution in the fall should write the Department of Education, Edmonton, at once.

Returned men only will be admitted to these courses. The University Dormitories and boarding facilities will be available for men who may attend. A rate similar to that prevailing during the regular session will be allowed, namely thirty dollars per month for both room and board.

The Department of Education will furnish tuition in these courses free. The session will close in time for those qualified to enter the Normal School or proceed with University work. All likely to attend should advise the Department at once that all courses required may be included in the plans.
